CEMENT ROOFING. THE undersigned are prepared to introduce into use in Tennessee W. F. CHILDS & CO.'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other Roofing.

ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth sur-face that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the a mos-

phere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, old shin des, tar and gravel, tin, sinc, copper, or iron roofs - it making no difference how steep or flat they may befor seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will, ive better satisfaction. It will also be found to be the best thing ever invented to

cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any ob-ject to which it is applied. Tin Roofs can be painted over can't warranted not to leak) at two deliars and fifty cents per hundred source feet, which is cheaper and much better than paint. This Roofing will be found to be the best thoug for covering large floofs where they are exposed to fir —such as Seam Mills, Saw Mills, Factories, Raifroad Cars, Bridges. Depots, Station Houses, Steambout Decka, and, in fact, every kind of Roof where there is an external exposure from fire. exposure from fire. As the Reof is perfect, without a joint in it, it presents no chance for fire to communicate, and any ight substance will burn out without igniting. Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin The Cement will be furnished to those at a distance with directions for using.

Urders sent to the undersigned, through the Postoffice, will be promptly attended to J. T. NATHURST,

TO ALL WHOM IT MAY CONCERN, This is to certify that have examined specimens and Roofs of W. F. Childs & Co. Elastic Fire and Water-Proof Cement Roofing," and be Here it to be eminently superior to any other kind of Roof-ing in use. I was an eye withe s of a severe trial of one o these Roofs from a large volume of flame from an a joinin building, which struck directly upon the roof and cornic for nearly half an hour. It stood the trial beyond all ex-pectation, and saved the building. T. M. HASKELL, President Buckeye State Insurance Co.

Having made considerable inquiry as to the merits of th

Patent Elastic Cement Roofing," introduced into this cit. by Childs & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction, that its superfority over the tar composition Roofing is decided and freely admitted and finally, I expect to adopt it for my next roof, which will be next summer—having intended to use tin, but will try the virtues of the "Patent tlastic Roofing" as a sub titute.

OFFICE OF THE CIN., HAN AND DAYTON RAILROAD. Childs & Co.'s Patent Cement Roofing is now used here on our best class of Buildings. We are covering our Freight Cars with it, and our Master Machanic reports very favor-able to it.

Dysentery, Relax and Worms-POST OFFICE, HARTLAND, Law. Co., MICH., Nov. 16, 1855. Dr. Aven: Your Fills are the perfection of Medicine. They have done my wife more good than I can tell you. She had been fick and piring away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards dured ber and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dofers dectors' bills, and load much time, wi hout being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO. J. GRIFFIN,

The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern pretions timber appearance with heavilled. ctions timber predominates, alternating with beautiful prairies and openings

The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing while living streams and springs of excellent water abound Bituminous Coal is extensively mined, and supplies a scap and desirable fuel, being furnished at many points at \$2 to \$4 per ton-and wood can be had at the same rate Building Stone of excellent quality also abounds, which can be procured for little more than the expense of trans-The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rollin, their contiguity to this Road, by which every facility is furnished for travel and transportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, render them the most valuable in-vestment that can be found; and present the most favorable opportunity, for persons of industrious babits and small means, to acquire a comfortable independence in a few years.

Chicago is now the greatest grain market in the world—
and the facility and economy with which the products o
these lands can be transported to that market, make them
much more promisely, as the prices asked, than those more
remote at government rates,—as the additional cost of
transportation is a perpetual tax on the issuer, which must

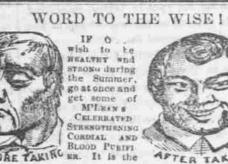

e borne by the producer, in the reduced price he receives for his grain, &c. for his grain, &c.

The Title is perfect—and when the final payments are made, Deeds are executed by the Trustees appointed by the State, and in whom the title is verted, to the purchasers, which convey to them absolute titles in Fee Simple, free and clear of every incumberance, lien or morigage.

The prices are from \$6 to \$30; interest only 8 per cent. er cent will be deducted from the credit price for Casn. Those who purchase on long credit, give notes payable in 2. 3, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation, at the end of the time.

Competent Surveyors wid accompany those who wish to examine these Lands, free of charge, and aid them inmaking selections.

The lands remaining unsold are as rich and valuable as those which have been disposed of. Sectional Maps will be sent to any one who will enclose fifty cents in Postage Stamps, and Book's of Pamphle's containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad Lands, throughout the State -also the cost of fencing, price of cattle, expense of har-vesting, threshing, etc., or any other information-will be cheerfully given on application, either personally or by letter, in English, French, or German, addressed to JOHN WILSON Land Commissioner of the Illinois Central R.
